

Session Program

1-5 Jun 2026

Identification of Dark Matter 2026

Plenary Session

Paraninfo, University of Zaragoza

Thursday 4 June

09:00

Plenary Session

Session | **Location:** Aula Magna | **Convener:** Richard Gaitskell

09:00–09:30

Review of low-mass WIMP direct detection with ionisation detectors

Speaker

Daniel Baxter

09:30–10:00

Making the most of the neutrino fog with direct detection experiments

Speaker

David Cerdéño

10:00–10:30

Distinctive signatures of direct dark matter detection

Speaker

Jocelyn Monroe

10:30–11:00

Paleo-detectors: an alternative approach to direct detection

Speaker

Dionysios Theodosopoulos

11:00
